

IT System Admin

Job brief

We are looking for a skilled **IT coordinator** who will maintain our information technology systems and networks. You will perform both technical and administrative tasks to ensure functionality and efficiency of computer and telecom systems.

IT Coordinator Job Duties

An IT coordinator must be knowledgeable in software, hardware and networks. They must be critical thinkers and problem-solvers with great attention to detail. Since end user support and teamwork are important aspects of the role, excellent communication and people skills are required.

Responsibilities

- Institute protocols for the use of IT across departments and projects
- Provide advice on the most suitable IT choices
- Provide technical support or training for systems and networks
- Act as link between end users and higher level support
- Install and configure software and hardware (printers, network cards etc.)
- Monitor system and network performance
- Perform troubleshooting, repairs and data restoration
- Performance maintenance activities (e.g. backups)
- Maintain licenses and upgrade schedules
- Collaborate with other professionals to maintain standards and functionality

Requirements

- **Proven experience** as IT coordinator or similar role
- Experience in network management and help desk support is appreciated
- Solid knowledge of IT systems and applications
- Understanding of TCP/IP protocols and LAN/WAN configuration
- Ability to troubleshoot and repair issues
- Strong communication and interpersonal skills
- Great attention to detail
- Excellent organizational and coordination abilities
- B.Sc/BA in information technology or computer science is preferred

The last date of application: 30th November 2020
